

## **Eqra Arabic Course : General Instructions**

**Junaid Khan**

### **Register.**

All new students should visit and fill the [Registration Form](#). Students are requested to provide us with their email address and phone numbers for further course notifications (new course offerings, course resources). Your data will not be distributed to third-party services/applications.

### **Lectures and Slides.**

Once registered, students can watch the lectures at their own pace. Each lecture lasts for 40-60 minutes. Students can download the lecture slides and/or make their own notes. **Note : It is recommended that you give enough time for understanding and revising the material. Ideally, you should study two lectures per week.**

### **Textbook Exercises.**

During the lecture we will go through the lesson's exercises. I will orally discuss the answer to some problems. The solution for the remaining problems will be given at the end of the "Lectures" web-page. Read "Exercise Key". **Note : Students should solve each exercise by themselves. The Exercise Key should be used for checking the student's answer, once they have attempted the questions.**

### **Quiz.**

There will be graded short "quiz" questions right after each lecture to help you gauge your understanding. Students must revise the lecture thoroughly before attempting the quiz. Note : This is a "close-book" quiz, students should not refer to any material while giving the quiz. Read "Quiz Instructions" for more details.

### **Assignment (Optional).**

Half-way through the course, students are provided with an assignment. Students can refer to their notes while attempting the assignment. Read "Assignment Instructions" for more details.

The solution for the assignment will also be given separately. **Note:** Since this is a self-contained course, students are expected to self-supervise their assignment and abide by the rules. Read "Assignment Solution".

### **Final Exam.**

Finally, students must give a 1-hour exam at the end of this course. To help you pull together everything that you have learned. This will be a "close-book" exam, students are not allowed to refer to any material while attempting this exam.
